

Alcoa response re conflict between IECA membership and its sustainability policies

17 July 2017

Business & Human Rights Resource Centre invited Alcoa to respond to the following blog post:

- “Groups Mised Trump on Economic Case Against Paris Agreement”, Han Chen, National Resources Defense Council, 5 July 2017: <https://www.nrdc.org/experts/han-chen/trump-mised-economic-case-paris-agreement>

Alcoa sent the following response:

“Alcoa belongs to numerous business-focused organizations, including some that have divergent views on public policy issues. As a recognized leader in sustainability, our goals are documented and shared via an [annual sustainability report](#). We continue to work on system-wide goals to further improve our environmental footprint, including the reduction of greenhouse gas.”
