December 11, 2013

Honorable Mary Jo White
Chairman
U.S. Securities and Exchange Commission
100 F Street, N.E.
Washington
DC 20549-1090

Dear Madam Chairman,

This letter is submitted on behalf of Newmont Mining Corporation ("Newmont") as an expression of Newmont's support and commitment related to the extractive industry revenue transparency and disclosure reporting. Newmont is a U.S.-based gold and copper producer with significant mining operations in the United States, as well as mining operations in Australia, Peru, Indonesia, Ghana, New Zealand and Mexico. As you may be aware, Newmont has been an active and vocal supporter of revenue transparency and an original signatory to Extractive Industry Transparency Initiative (EITI).

Newmont has built transparency and reporting into our global social responsibility policy and performance, and we currently utilize regular independent auditing mechanisms to assure conformance. Similarly, Newmont was one of the few corporations that testified before the U.S. Congress in favor of U.S. extractive companies reporting payments to governments. It is our view that responsible development of mineral resources can bring great benefit to a country and its people, but only when good governance is in place to monitor the distribution of those benefits.

Newmont also actively supports the U.S. EITI process and serves as an industry member on the Multi-Stakeholder Group to contribute to defining the U.S. process and outcomes. We believe that Dodd-Frank Section 1504

can serve as a compliment to EITI and broaden and deepen the transparency agenda globally. It will be critical for stakeholders to work to align efforts towards advancing efficient and consistent reporting requirements.

Newmont will continue to support efforts towards transparency and reporting that is related to our industry and business. We encourage stakeholders to work constructively as the rule-making process is redefined to ensure an efficient regulatory framework is established that broadly meets all stakeholder needs while ultimately ensuring the overall goal of increased transparency and reporting of revenues.

We appreciate the opportunity to express our perspective and ultimate position towards revenue transparency and reporting, which we believe is not only good for our business, but good for our shareholders and communities that host our operations.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gary J. Goldberg".

Gary J. Goldberg
President and CEO
