

Subject: Invitation to respond - adidas in our COVID-19 tracker

We are happy to share with BHRRRC a general statement on our actions, which reflects our current and ongoing effort. Please see [here](#).

Despite the many challenges, the direction we have taken has been informed and aligned with our responsible purchasing principles. We committed to pay for all orders completed, or in process at the outset of Covid-19. We have continued to honor and uphold our standard manufacturing terms, including the payment of goods received, as well as the protection of worker rights. We have not sought discounts from our business partners. Where required, we have assisted our key strategic suppliers secure bank finance to help them weather the Covid-19 crisis. And we are now working intensively with our manufacturing partners to identify ways to balance the flow of available orders to sustain their operations through the difficult months ahead.
